

KIKOKUSHIJO ACADEMY

Summer Day Camp

PROGRAM A

Dates: July 23 - 26 or August 6 - 9
Time: 10:30 - 15:30

Locations: Toritsudaigaku,
Meidaimae, Meguro, Funabashi

Grades 1 & 2

LITTLE SCHOLARS

Join Milo on his quest to find the "perfect" school day and have lessons in every key school subject—English, math, health, social studies, and many more. You will also solve puzzles and do some physical exercise to help keep your mind sharp. Don't miss out!

SCIENCE IS AMAZING

In this class, you will read, write, and talk about four different fields of science—meteorology, physics, human biology, and chemistry. Through fun experiments, you will learn just how amazing science can be.

Grades 3 & 4

JUNIOR SCHOLARS

Join Albert on his quest to find the "perfect" school day and have lessons in every school subject—English, math, health, social studies, and many more. You will solve puzzles and get some physical exercise in, too! You definitely don't want to miss out!

CHEMISTRY IS AWESOME

In this class, you will read, write, and talk about an important field of science—chemistry. You will learn, through fun experiments, just how awesome chemistry can be.

Grades 1 - 4 Art!

Make fun and exciting art projects with your KA friends! You will be creating birdhouses with popsicle sticks! You will also learn about influential artists and how to create similar works of art.

PROGRAM B

Dates: July 30 - August 2
or August 13 - 16
Time: 10:30 - 15:30

Locations: Toritsudaigaku,
Meidaimae, Meguro, Funabashi

Grades 1 & 2

KA WORLD TRAVELER: THE WONDERS OF THE WORLD

Let's travel to some of the world's most breathtaking natural destinations. Towering mountains, deep canyons, dazzling Northern Lights, and one of Earth's greatest ecosystems with its own distinct plant and wildlife await you!

Grades 3 & 4

GRANNY'S CLOSET

Join Ali and Jun as they peer inside Granny's Closet and learn about how and why fashion has changed over the years. Ali and Jun also have a big decision to make at the end of the week and could really use your help!

SCIENCE IS AMAZING 2

In this class, you will learn about four very important fields of science: botany, human biology, environmental science, and chemistry. You will learn, through fun experiences, just how amazing science can be!

SCIENCE IS AWESOME

In this class, you will read, write, and talk about four important fields of science—botany, chemistry, physics, and human biology. You will learn, through fun experiments, just how awesome science can be!

Grades 1 - 4 Art!

Make fun and exciting art projects with your KA friends! Craft and color your very own underwater diorama using paper plates! You will also learn about influential artists and how to create similar works of art.

Sign up from
May 18 - June 15!
